Dear Sir:

INTRODUCTORY COMMENTS

This paper is in response to the Advisory Action dated November 16, 2005, and is a supplement to the Amendment After Final filed with this application on October 31, 2005. Please reconsider the above-identified U.S. patent application in light of the following remarks:

In response to the Advisory Action's contention regarding claims 1 and 3-13 that Yokouchi discloses that the "selection process of charge pump is dynamically determined based on time-varying requirements [anticipated change in demand] of system operation", Applicant respectfully submits that the mere *reaction* of the selection process of a charge pump to time-varying or any other requirements is not responsive
